

# Wine Club

## Village Wines Story

All of us here at Village Wines share a common love and passion for the same thing: Wine. To us, it's not *just* a bottle of wine, for in that bottle lies a story that is unique in the history of the world. Where and when the grapes were grown, who planted them, who harvested them... all of these are questions that fire the wine-lover's imagination. Wine is the catalyst for creating unforgettable memories with friends, family -- even perfect strangers. While we learn more and more about wine everyday, we love to share our passion for and knowledge of wine and, most of all, make a place for you in our shop.

Village Wines at Castle Pines is proud to announce our Wines of the Month Club. It's the perfect way to surprise a friend, family member, or even yourself, with a unique and unexpected gift that anyone would love.

Do you feel like you're constantly going back to the same bottle of wine, but want to branch out and try something new? Well...we have hundreds of great wines in our shop that we'd love to share with you. Joining our Wines of the Month Club invites you to open a bottle of wine that you wouldn't normally select for yourself.

The wine club allows you to learn about great new wines and expand your palate with a wide selection of varietals, explore the world through new appellations, and excite your friends and family by bringing something new to the table.
